

RangeMaster Pro II

The ultimate firearm record tracking system for law enforcement and security agencies.

Features

RangeMaster Pro II:

- Tracks unlimited number of officers, locations, firearms, firearm maintenance, qualifications, equipment, and training records.
- Includes automatic system reminder notices for firearm maintenance, qualification courses, training courses and license to carry permits that have expired or are about to expire.
- Includes a Custody Log that automatically builds a chain of custody for each firearm.
- Contains tools that speed up data entry by filling in fields that are common.
- Easily transfers firearms from one officer or location to another officer or location.

Designed for flexibility.

- Contains thirty-three easily customized reports to select from.
- Flexible security restricts access and varies permissions for any number of users.
- Data Viewer tool, an extremely powerful and simple way of looking at your data. Allows you to filter, sort, and print your data in unique ways that you define.
- Includes a profile option that allows you define the method of scoring as either Pass/Fail or Individual Score.
- Allows you to define new fields to capture data unique to your agency.

Liability

When you go to court on a shooting, *all* your records are required... Are you prepared?

- Protect your liability.
- Protect your department's liability.
- Protect your officer's liability.

RangeMaster Pro II organizes all your firearm records. The extensive reporting capabilities mean you can be ready for court in a matter of minutes.
